MFLEX™ WRAP

PRESSURE-SENSITIVE LABEL APPLICATOR SYSTEM

Engineered for Modularity and Flexibility

Building on the many years of experience and engineering expertise within ProMach Labeling & Coding, the MFlex is a completely new, modular, and flexible pressure-sensitive labeling system.

Composed of a label applicator and integrated product handling solution, the MFlex Wrap labeler is designed to label round or cylindrical containers and packaging neatly and accurately with the ability for partial, half, and full wrap capabilities.

MFlex Wrap is available with either a conventional wrap station module or a 3-point wrap, designed for applying a label in register with features on the product or for unstable products.

FEATURES AND BENEFITS

- Closed-loop electric servo system to ensure maximum synchronization and control
- Singular full color touch-screen HMI provides fast access to any adjustments as well as full diagnostics for maintenance.
- Built on a welded stainless steel frame, using non-corrosive components that feature IP65 protection.
- Modular components for maximum serviceability.
- Tool-free design for easy and fast adjustments.
- Compact high-powered brushless DC conveyor and product handling motors.
- Zero downtime option featuring redundant labeling heads for continuous labeling production.
